

SPI Petro-Plugs®

THE FIRST DEFENSE AGAINST HYDROCARBON SPILLS!

- 24 Hour Protection From Oil Spills and Sheen.
- Save Thousands in Clean-Up Costs.
- Designed to Fit Standard Floor Drains.

The **Petro-Plug®** is designed to fit into standard 3" and 4" floor drains, allowing water to drain while filtering out oils sheen. The patented **Petro-Plug®** seals on contact with hydrocarbons, shutting off any flow into sewer lines, sump pits, oil/water separators, catch basins, etc... **Petro-Plugs®** are constructed from rigid PVC for strength and durability. The **Petro-Plug®** has a unique Twist-Lock top which provides a water tight seal, allowing it to be installed or removed quickly. To install, simply remove the drain grate and glue the **Petro-Plug®** mounting ring into the drain pipe. Then insert the **Petro-Plug®** into the pipe and lock into place with 1/4 turn.

Petro-Plug® Protects Pipes and Drains From:

- | | | |
|------------------|--------------------|-----------------|
| • GASOLINE | • TRANSFORMER OIL | • JET FUEL |
| • DIESEL | • MOTOR OIL | • CABLE OIL |
